

Shoreless Lake School Wisconsin

NEWS LETTER: 4th Quarter 2018-2019

A Letter from the Principal

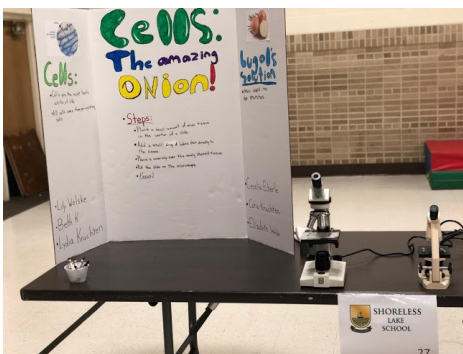

I would like to announce Fr. Pedro Escribano as the new Principal of SLSW starting this Fall. We are very pleased to have him resuming his original post! I will still be here helping Fr. Pedro with the many tasks of running the school. I would also like to congratulate our students for their hard work, diligence and great attitude, performing difficult tasks with outstanding results! May God reward you all with an enjoyable and holy summer!

I have been blessed with the opportunity of working with incredible and committed teachers, who have made an impact that will last forever in the lives of our students. My deep appreciation for their commitment to excellence and continuous improvement of our school, following in the footsteps of our beloved Founder, Father Alfonso Galvez, who has dreamed of this lofty endeavor: "to provide an integral education and formation of our youth," and which is now becoming a wonderful reality...

Academics

Science

Science Fair

7th graders sponsored a booth at St. Al's Science Fair this year. They demonstrated how to prepare slides for the microscope and explained the structure of plant cells.

4th Quarter Field Trip

Science was also the focus of the field trip to Devil's Lake. They dodged a few showers in their quest for science, for fresh air, and for time spent exploring together. They learned that the bluffs are made of quartzite, saw fiddleheads, and enjoyed the almost neon green color of the leaves that can only be experienced at this time of year. They also got a workout while hiking uphill (and downhill again!) on the beautiful trails through the woods.

Computer Science

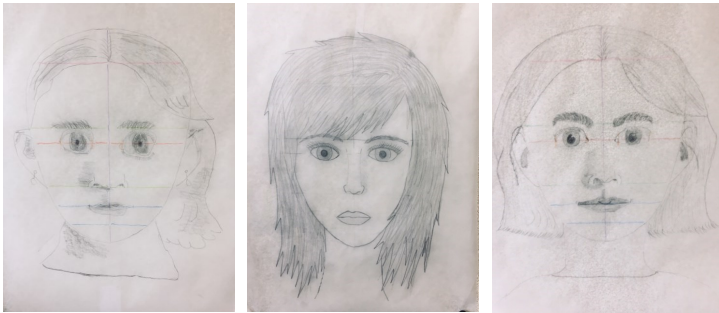

As their final computer coding assignment, the class “traveled to the moon to recreate the first moon landing. The students coded the objects to move through and around the “moon’s surface” and re-

giant leap for mankind”. Later, the 4th and 5th grade students from St. Al’s visited SLSW to see a demonstration of the project.
